Nancy Lieder's Bio

Nancy became aware of her contactee status in 1993, and the potential for being a communicator of the Zeta message, in the midst of a full life with a family and a full time job. As a contactee, Nancy participated in the hybrid program, and met one of her hybrid children. In preparation for her communicator role, Nancy was given life form introductions and introduced to MJ12 at an early age. Nancy expends her retirement time and money on getting the ZetaTalk message out. Requests for interviews take top priority. She quit a professional job in California in 1999 to move to Wisconsin to walk the talk. Born in Wisconsin, Nancy returned to her grandparent's homestead, where she first met the Zetas in the woods as a young girl. There, she gardened, saved seed, raised chickens, and tried to be an example of how people should prepare for the coming changes. As the ZetaTalk message is threatening to the establishment, who fear the populace will panic, Nancy deals with a lot of flack.

ZetaTalk began on January 19, 1995 in Michael Lindemann's ISCNI chat group. By late 1996 the Zetas were debating with astronomers on the sci.astro Usenet. Nancy has written two scripts, both available to the public in short story form - *The Passage* in 1997 and *Finegan Fine* in 2009. A ZetaTalk book was produced in 1998, and the basic message remains the same. Nancy ran weekly live chats where the Zetas addressed current topics on IRC from late 2001 into 2003, and from 2006 until early 2010 on the GodlikeProduction message board. Weekly chats are currently hosted on the Pole Shift ning. A Newsletter was started in late 2006 and continues today. The BBS Radio show featured Nancy as their premier show in August, 2005 where Nancy had a weekly spot until 2007 called *The Connection*. Between 2007 to 2010 Nancy had a regular Friday radio show on The Micro Effect. As of 2007, Nancy also began producing *The Zeta Report*, which are video clips on the Internet. As of 2013, Interviews are now documented on Nancy's YouTube channel. In 2015 the USA Emergency Broadcast Network invited Nancy for monthly shows, known as the Zeta Report on USAEBN.

Jeff Rense featured Nancy several times on his *Sightings* radio show, 1998 through 2000. Nancy has twice been included in Wireless News Service notices in 2000 and 2001. Nancy was featured in the April 2001 edition of *Art Bell's After Dark* magazine and appeared on the Coast to Coast radio show in 2003, 2005, 2007, and 2011. On October 24, 1997 ZetaTalk was featured on the *Strange Universe* TV program. *OutThereTV* has featured Nancy several times between 2002 and 2007. Nancy has been featured on TV in New Zealand in 2003, on Seoul Broadcasting System S Korea in 2009, on News First in Sri Lanka in 2012, on Ren TV in Russia in 2012, and on Russia 1 in Moscow in 2013. In February 2017 the American Heroes Channel featured Nancy in their series on *How the World Ends, Planet X*.

The inbound Planet X was sighted at the coordinates given by the Zetas in early 2001, imaged in infrared twice in January, 2002, tracked by CCD images in late 2002 to early 2003, and thereafter photographed by amateur astronomers around the world. That a middle aged woman with a high school degree, who does not even know which end of a telescope to *look* into, could pinpoint the RA and Dec of the brown dwarf, Planet X, is astonishing, and speaks to the validity of ZetaTalk. Due to the international interest in ZetaTalk, Nancy assists with providing translations into almost two dozen different languages available to the public. Mirror sites have been established around the world to ensure outreach.

Due to the serious nature of the ZetaTalk message, the Troubled Times group was formed in 1996 to seek survival solution sets for the common man. Nancy functioned as the web mistress of the huge Troubled Times site. A nonprofit, Troubled Times Inc, was incorporated in 1997. The nonprofit closed its doors in 2013 due to lack of demand for its media products. Nancy supported the nonprofit in an administrative capacity, grew and gathered seed for the seed team she started in 1998, has in the past maintained a hydroponics and vermiculture lab started in 2000 in her basement and assisted in the layout of the booklet offered by the nonprofit to the public from 2001 until the end of 2012. The nonprofit dissolved in 2013. In 2021 Nancy provided survival videos to the public via DVD or Dropbox download with the assistance of the ZetaTalk Followers group.
